Family Planning 2020 (FP2020)
Valerie DeFillipo
FP2020 Vision and Goals

**FP2020 VISION**
Women and girls should have the same access to lifesaving contraceptives and services no matter where they live.

**FP2020 GOALS**
To support the rights of 120 million additional women and girls in the world’s poorest countries to choose and use contraceptive information, services and supplies.

To use family planning success to drive future momentum for the broader Reproductive Maternal Newborn Child Health (RMNCH) continuum of care.
FP2020 will work with countries to reach shared objectives

- **Setting a baseline** for current contraceptive use and goals for each country where appropriate.
- **Coordinate** in-country efforts to improve contraceptive demand and contraceptive mix forecasts, which in turn can be aggregated into global demand forecasts.
- **Mobilize financial and health system resources** for contraceptives and service delivery at the country level, and increase those resource contributions over time.
- Identify ways to **dramatically decrease contraceptive stock-outs** and ensure broader access to women-preferred methods.
- Encourage the identification and application of **best practices** to drive effective scale-up of family planning service delivery.
- In coordination with partners (including civil society organizations), **identify novel ways to improve supply and generate demand**, particularly in those countries with very low modern contraceptive prevalence rates.
- **Monitor and proactively review progress** against goals and take additional action through governance and accountability processes as required.
## Countries Making Commitments

<table>
<thead>

<tr>
<td>Zimbabwe</td>
<td>Sierra Leone</td>
<td>Liberia</td>
<td>Cote d’Ivoire</td>
<td>Tanzania</td>
</tr>
<tr>
<td>Indonesia</td>
<td>Nigeria</td>
<td>Solomon Islands</td>
<td>Pakistan</td>
<td></td>
</tr>
</tbody>
</table>

Donors Committed 2.6B USD to reach 120M by 2020
## Illustrative Examples of Commitments and Progress

<table>
<thead>
<tr>
<th>Financial, Policy, and Service Delivery Commitments</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Malawi</strong> – CPR will grow to 60% by 2020; National Population Policy approved December 2012 and budget line already created for FP</td>
</tr>
<tr>
<td><strong>Rwanda</strong> - Commits to ensuring the availability of FP services in each of the 14,841 Rwanda administrative villages (Imidugudu)</td>
</tr>
<tr>
<td><strong>Uganda</strong> – Reduce unmet need for FP from 40% to 10% in 2022, increase annual govt allocation for FP supplies from US $3.3 million to US $5 million for the next five years</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Local Summits and National Family Planning Conferences</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Ethiopia</strong> – Hosted its first-ever National FP Symposium, including outreach to adolescents in November 2012 and will host 3rd ICFP in November 2013</td>
</tr>
<tr>
<td><strong>Nigeria</strong> – FP conference emphasized its critical role in achieving the MDGs and other development goals</td>
</tr>
<tr>
<td><strong>Tanzania</strong> – National FP Conference October 2013, focusing on Local Solutions to Local Problems</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Strategic, Detailed and Costed Family Planning Plans</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Zambia</strong> - Refined, costed, and launched eight year plan to scale up services across the country, complete with sequencing of prioritized activities</td>
</tr>
<tr>
<td><strong>Kenya</strong> – Currently updating costed implementation plan and increased 2012/2013 budget</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Innovative Approaches and Partnerships</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Senegal</strong> – Informed push model to address stock-outs and increase access to a full-range of methods</td>
</tr>
<tr>
<td><strong>Public-private partnerships</strong> – Decreased the price of Jadelle &amp; Implanon implants by over 50%</td>
</tr>
</tbody>
</table>
# Anticipated Commitments

**23 Countries made commitments in London**

- Bangladesh
- Burkina Faso
- Côte d’Ivoire
- Ethiopia
- Ghana
- India
- Indonesia
- Kenya
- Liberia
- Malawi
- Mozambique
- Niger
- Nigeria
- Pakistan
- Philippines
- Rwanda
- Senegal
- Sierra Leone
- Solomon Islands
- South Africa
- Tanzania
- Uganda
- Zambia
- Zimbabwe

**We anticipate 5 new country commitments in Addis but the remaining countries have not made commitments**

- Afghanistan
- Benin
- Bhutan
- Bolivia
- Burundi
- Cambodia
- Cameroon
- Central African Republic
- Chad
- Comoros
- Congo
- Congo, DR
- Djibouti
- Egypt
- Eritrea
- Gambia
- Guinea
- Guinea-Bissau
- Haiti
- Honduras
- Iraq
- Korea, DR
- Kyrgyzstan
- Lao People’s Democratic Republic
- Lesotho
- Madagascar
- Mali
- Mauritania
- Mongolia
- Myanmar
- Nepal
- Nicaragua
- Palestinian Territory
- Papua New Guinea
- Sao Tome and Principe
- Somalia
- Sri Lanka
- Sudan (and South Sudan)
- Tajikistan
- Timor-Leste
- Togo
- Uganda
- Uzbekistan
- Vietnam
- Western Sahara
- Yemen

---

1 South Africa is not one of the 69 FP2020 countries though they did make a pledge in London

**Bolded countries are anticipated pledges at the International conference on Family Planning in Ethiopia**
Financial Commitments to Family Planning
The number of commitments increased from 111 in September 2010 to 293 in June 2013.

The London Summit on Family Planning was a key marker for commitments and of 73 new commitments in 2012, 34 were made at the event.
The number of commitments reported has increased from 2011 to 2013, in line with the 2012 report recommendation for:

“…increased attention and resource allocation to previously neglected interventions, such as family planning”
Family planning has been the subject of the largest number of commitments compared to other RMNCH interventions.
Bilateral Disbursements

FP disbursements by bilateral donors and the Bill & Melinda Gates Foundation grew at a faster rate compared to other areas of RMNCH spending.

<table>
<thead>
<tr>
<th>Category</th>
<th>Total bilateral disbursements 2008</th>
<th>Total bilateral disbursements 2011</th>

</table>
Working Groups | Key Developments Since the May 2013 Reference Group Meeting

Country Engagement Working Group
- First Member Meeting Washington, D.C. July 24-25, 2013
- Preliminary Work Plan

Market Dynamics Working Group
- Selected Membership September 12, 2013
- Updated TOR

Performance Monitoring & Accountability Working Group
- First Member Meeting Geneva, Switzerland July 30-31, 2013
- Preliminary Work Plan

Rights & Empowerment Working Group
- First Member Meeting Washington, DC August 20-21, 2013
- Preliminary Work Plan
Countries are supported to develop and implement costed national family planning plans that accelerate access to voluntary family planning with support from donors, multilateral organizations, civil society, and FP2020.

### Illustrative activities:
- Strengthen and refine landscaping tool
- Review and analyze landscape data and cluster countries according to technical and financial needs, determining areas of intervention
- Map existing technical resources
- Facilitate access to assistance in developing/strengthening, reviewing, costing or implementing plans
- Identify country needs for technical assistance (proactive approach) and analyze requests for assistance (reactive approach)
- Identify resource gaps (proactive approach) or based on country requests (reactive approach)
- Identify and collate success stories, best practices, and innovations (ensure linkages with existing platforms)
- Identify and disseminate unified approach to costing

### Work Streams

<table>
<thead>
<tr>

</tbody>
</table>
Data are disseminated, reported and utilized to promote accountability and inform family planning at the country and global levels in support of FP2020 goals.

Illustrative activities as identified in PMA WG meeting in Geneva:

- Conduct an audit of the global FP accountability landscape, including tracking of FP2020 financial, policy, and service delivery commitments (and address gaps)
- Fine tune FP2020 core indicators
- Advise and guide the process for establishing an annual progress assessment of MCPR and other indicators
- Identify opportunities for FP2020 to utilize existing data in new ways and/or highlight gaps in data/measurement agenda
- Create new or leverage existing tools to encourage data utilization
- Provide strategies to strengthen capacity for data utilization at policy/advocacy; resource; program design/implementation levels
- Enhance communication among researchers to promote use of existing best practices
Output 3

Data are disseminated, reported and utilized to promote accountability and inform family planning at the country and global levels in support of FP2020 goals.

<tr>
<td>4. RIGHTS &amp; EMPOWERMENT AND MEASUREMENT</td>
<td></td>
</tr>
</tbody>
</table>

- Identify and collate practical tools for use in programming for countries/implementers
- Develop rights language (reactive – as requested, and proactive – as a resource)
- Draft guidance template for review of plans
- Package training tools and best practices for dissemination
- Develop an experts database
- Make recommendations based on this work and evaluate progress
- Meet with PMA sub-group on indicators and data sources
- Review/analyze range of studies to collect qualitative and quantitative data underway to advance the field in measuring whether rights are being respected, protected and fulfilled in FP programs.
- Conceptualize and propose development of new ways of presenting R&E data with the goal of data utilization and in ways that will move/influence various audiences (ex. stories, maps, etc.)
Implant Access Initiative
Market2020 Aims

- Ensure the choice of methods women and men want

- Secure the availability of supplies needed to reach 120M new users by 2020

- Guarantee the effective, timely delivery of contraceptive supplies through appropriate data sharing and coordination
Meeting the Challenge

- Delivering increased volumes of supplies to meet growing demand
- Ensuring quality services are in place to deliver higher volumes
- Making sure new opportunities are within the reach of those who will make a difference
- Confronting the multiplicity of bottlenecks that impede choice and access
Delivering increased volumes

- Bayer has increased its manufacturing capacity, while Merck uses more of the capacity it increased in 2011.

- New product registrations in place for Jadelle, Implanon and Implanon NXT (which will soon replace Implanon, starting in 2014).

- Efforts underway to balance country needs with the demands of global procurement processes.

- RH community is getting on board, and bringing with them tools, new partnerships and expanded efforts at information sharing.
Expanding services

- Efforts are underway within SMO sector to train public and private sector providers on implant insertion and removal, infection prevention and counseling.

- Standardized training materials are being developed.

- Country based trainings are ongoing with more being planned, also within the context of LARCS more broadly.

- Efforts are still needed to better integrate training into country plans and strategically pursue options for international financing.
Knowing where to turn for help

- Implants TRT of the UN Commission assembles 82 stakeholders with expertise in increasing access to implants.

- FP2020 Working Groups positioned to address critical issues such as training/service delivery, forecasting and supply planning, and performance monitoring.

- Possible interest platform that could serve as a one-stop-shop for information dissemination and a portal for others to seek support need to increase access to implants.
